# Oh no! This web page achieves a carbon rating of F

This is dirtier than **86%** of all web pages globally

Learn about our [rating system](#)

This page was last tested on 24 Dec, 2025.

**Copy URL** 

Oh my, **0.81g of CO<sub>2</sub>** is produced every time someone visits this web page.

How do we calculate this?

Oh no, it looks like this web page uses **bog standard energy**

If this site used green hosting, then it would emit 9% less CO<sub>2</sub>

How do we find this out?

This result is an approximation

You can get a comprehensive view of a website's emissions and potential improvements by carrying out a Website Carbon™ Audit.

Over a year, with

+ **10,000**

monthly page views, this web page produces

# 97.45kg of CO<sub>2</sub> equivalent.

As much CO<sub>2</sub> as boiling  
water for 13,205 cups of tea

## 197 kWh of energy

As much CO<sub>2</sub> as 16,439 full  
charges of an average  
smartphone

## 104 billion bubbles

Woah, that's a lot of bubbles!

## Take action

## Website Carbon Badge

Tell your visitors about your carbon emissions

Show your carbon credentials

The badge can be added to the footer of any website to automatically calculate and display the carbon emissions of each page.

A screenshot of a website with a dark blue background. At the top, there's a navigation bar with 'Home' and 'About'. Below the navigation, the text 'Dark theme' is displayed in white. In the center, there's a large, semi-transparent dark blue overlay with the text 'Light theme' in white at the bottom. A white button with a black border and the text 'Get the badge!' is centered in the middle of the overlay.

Dark theme

A screenshot of the same website with a light gray background. The text 'Dark theme' is now in black at the top. The central overlay has a white background with a black border, containing the text 'Light theme' in black. The 'Get the badge!' button is also in black text on a white background.
